

Food Handling App

Problem:

Most people can not find any good meals to make most of the time.

Solution:

- They can use the app to find meal ideas and their recipes/descriptions to help them make different meals.
- They can use the app to balance their diet (see different types of meals that can be eaten during their diet.).
- They can use the app to find/make desserts
 - The app can show the types of desserts.
 - Description
 - Recipe
 - Calories
 - Etc.
- They can use the app to find snack ideas to eat, along with their descriptions and recipes.

(They also have to sign in to the app.)
